Objective

Seeking a challenging position in a reputable organization to expand and utilize my learning, skills and knowledge. Possess excellent communication skills and have an eye for detail.

Education

University of Mumbai – IDOL (Institute of Distance and Open Learning)

Master of Science (M.Sc.) – Computer Science   *Pursuing*

Mahatma Phule Arts, Science and Commerce College, Panvel   **2022**

Bachelors of Science in Information Technology   *CGPI: 8.32*

Technical Skills

Languages/Database: Core Java, C#, SQL
Web Technologies: HTML, CSS, JavaScript
Frameworks: Springboot, Spring MVC, Hibernate, J2EE
Other: Data Structures and Algorithms, Object Oriented Programming, REST API Development
Platforms & Tools: Git, GitHub, MySQL Workbench, Postman

Projects

Employee Management System | Git
* Designed and developed an Employee Management System using Java, JSP, Servlets, and MySQL with MVC architecture.
* Implemented full CRUD operations for employee records including name, email, position, salary, and joining date using DAO pattern.
* Integrated JDBC for database connectivity and used MySQL to persist employee data securely and efficiently.
* Developed responsive JSP-based UI using HTML, CSS, and JSTL for dynamic table rendering and form validation.
* Tech Stack/Learnings – Java, JSP, Servlets, MySQL, JDBC, DAO Pattern, HTML, CSS, JSTL

Personal Portfolio Website | Git
* Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript.
* Showcased academic background, projects, technical skills, certifications, and contact information in a structured layout.
* Integrated GitHub and LinkedIn profile links for professional visibility and added interactive UI features for improved user experience.
* Deployed the portfolio using GitHub Pages for public access and version-controlled the codebase using Git.
* Tech Stack/Learnings – HTML, CSS, JavaScript, Git, GitHub Pages

TODO List | Git
* Built a browser-based TODO list application to manage daily tasks using HTML, CSS, and JavaScript.
* Implemented core functionalities including task creation, deletion, and marking tasks as complete.
* Utilized JavaScript's localStorage API to store task data persistently across browser sessions.
* Designed a clean and responsive UI with interactive elements to enhance usability.
* Hosted the source code on GitHub for version control and public sharing.
* Tech Stack/Learnings – HTML, CSS, JavaScript, localStorage, Git, GitHub

Experience

CODE CRAFT INFOTECH   **May 2025 – Jun 2025**

Full Stack Web Development Intern   *Remote*

* Developed RESTful web apps using Spring Boot and MySQL.
* Created reusable UI components using HTML, CSS, JavaScript.
* Collaborated on GitHub and used agile practices like daily standups.

Interests

Backend Development, Web Application Development, Full Stack Projects
